Resolution to authorize the Mayor to sign a Joint Resolution approved by the Public Service Board (PSB) on June 9, 2004, and authorizing the sale from PSB to the City of a parcel identified as a portion of Tract 1A, Nellie D. Mundy Survey No. 240, El Paso, El Paso County, Texas, consisting of 34.121 acres of land, more or less. Such parcel has been found to be inexpedient to use in connection with the Water and Wastewater System, and its sale will not impair the assets or adversely affect the operations of the El Paso Water Utilities. The parcel shall be used as a park site for the City, which will pay PSB the sum of \$278,750 (25% of appraised value) plus the cost of appraisal, survey, and environmental review, Phase I, for the transfer. Source of funds will be the 2000 Quality of Life Bond proceeds.

The site shall be use to develop the Westside Sports Complex with the following scope:

The Westside Sport Complex will consist of up to six regulation size soccer fields, two junior size soccer fields and possibly two softball fields. Covered bleachers and lighting shall be provided on some of the full size soccer fields and softball fields. There will be a main facility building with a concession stand, restrooms and irrigation system controls/pumps. Group pavilions, picnic tables and remote portable toilet facilities shall be strategically placed throughout the park. A walking / jogging path will provide access throughout the site. The design will incorporate parking facilities for the City's intramural teams. EPCCC has agreed in principal to allow the COEP to use of their parking lots for major sport events to minimize the infrastructure cost to the complex. Through a potential joint use agreement with the CISD additional sport fields could be made available to the COEP.

Westside Sports Complex – Executive Summary

PROGRAM BUDGET: \$5,800,000
CONSTRUCTION BUDGET: \$3,750,000

The Westside Sports Complex is a 2000 Quality Of Life Bond project which is being proposed to be built on approximately 35 acres of PSB land adjacent to the Northwest Campus of the El Paso Community College (EPCC) and the Canutillo Independent School District (CISD) high school under construction. The site has the benefit of undeveloped land to the north, south and west and the EPCC and CISD schools to the east which will minimize any disruption to adjacent property owners due to the increase traffic, noise and lights associated with a sports complex.

The Westside Sport Complex will consist of up to six regulation size soccer fields, two junior size soccer fields and possibly two softball fields. Covered bleachers and lighting shall be provided on some of the full size soccer fields and softball fields. There will be a main facility building with a concession stand, restrooms and irrigation system controls/pumps. Group pavilions, picnic tables and remote portable toilet facilities shall be strategically placed throughout the park. A walking / jogging path will provide access throughout the site.

The design will incorporate parking facilities for the City's intramural teams. EPCCC has agreed in principal to allow the COEP to use of their parking lots for major sport events to minimize the infrastructure cost to the complex. Through a potential joint use agreement with the CISD additional sport fields could be made available to the COEP. The PSB has indicated that reclaimed water for the COEP and CISD turf fields will be available from the Ressler Drive line.

Primary access to the site would initially be from I-10 access road south of Transmountain /Loop 375 Road via the new four lane road being constructed jointly by the EPCCC and the CISD. EPCCC and CISD have indicated that this road will be dedication to the City. Once the TexDOT constructs the State Highway 20 / I-10 / Loop 375 Spur controlled access with traffic lights would provide the main access points to the sports complex, CISD and the EPCC properties.
